

# PLOPP standard stool

**Material**  
steel, inox, copper

**Colours**

**Limited editions**

H: 50cm / 19.7"  
Ø 35cm / 13.8"

Raw lacquer steel version products are designed to have an industrial look so they can have few scratches or rust stains on a surface underneath the lacquer.

Plopp stool is an icon and a bestseller of Zieta Prozessdesign. The unique, toy-looking and playful shape of Plopp is an effect of an innovative forming method – FIDU. FIDU technology means that two ultra-thin steel sheets are welded together around their edges and inflated under high pressure to give a 3d object. FIDU enables mass production

of individualized shapes. Forms made in FIDU are very light but also very durable. Since its market release, Plopp stool has been shown at many exhibitions around the world and has won many prestigious awards – including Red Dot Design Award 2008, German Design Council Award 2008 and Forum AID Award 2009.
