POWERED BY EIT HEALTH

Venture Capital Analyst Associate (f/m/x)

Aescuvest – Frankfurt / Munich / Zurich / London / Paris

Do you want to make a difference? Do you want to be a part of key investment decisions and actively help shape them? Do you want to work at the forefront of modernization and fuel the next generation of healthcare technology?

Then you are in exactly the right place with us!

At Aescuvest we focus on next generation venture capital. As leading pan-European FinTech we provide digital venture capital investments into top-tier deals on our cutting-edge platform. Through a very prestigious partnership with the EIT Health, we have exclusive access to the best ventures in Europe in the largest and fastest growing market: Healthcare!

Our mission is to empower meaningful investments into breakthrough innovations in BioTech, MedTech and Digital Health and ultimately to improve care. Collectively, our team brings decades of experience from leading investment institutions, healthcare leaders, and successful technology companies. We are growing quickly while staying authentic and true to our mission and are looking for you to join us as soon as possible.

THE ROLE

As Venture Capital Analyst Associate (m/f/x) you will be an essential part of our investment team and we are looking for a passionate technology futurist, who wants to work in the venture capital space. You will be our internal thought leader on future healthcare technologies, from robotic surgery, gene editing to digital therapeutics.

You will analyze market trends, qualify incoming investment opportunities, and build up strong investment cases. By liaising directly with start-ups you will help us identify the most impactful ventures and business ideas in the healthcare space and assess the business models and technological capabilities of our existing ventures as well as future investments.

We know that the banking industry is changing fundamentally. If you're looking for a career that will unlock new opportunities, this role allows you to explore the possibilities and potential to grow with us.

WHY JOIN

- **Fund companies that matter.** We back founders who use technology and scientific innovation to shape the future of health.
- **Have a major impact.** Your everyday work will define how some of the hottest and most impactful healthcare ventures in Europe will develop and grow.
- **Work with entrepreneurs at eye-level.** Our flat hierarchy means that you will take project ownership and contribute with your own ideas and experience from day one.
- **Get things done.** We focus on results and turning visions into reality efficiently – not on how long you stay in the office.
- **Diverse and inclusive team.** Challenging and varied tasks give you scope to interact with highly skilled individuals in finance, capital markets, law, technology, and communications.
- **Work in style.** You can work in style and comfort from partner offices anywhere in Europe, e.g. Stockholm, Brussels, Munich, Paris, London and many more. We also provide the opportunity to work remotely.
- **Grow with us.** We want you to become a core team member and are ready to invest in your career progress.

YOUR TASKS & RESPONSIBILITIES

- We place start-up selection at the core of our attention. At all times. They are the most important piece of a gigantic puzzle and we understand it as a privilege to accompany them on their way. You will be the sparring partner right by their side.
- Help refine and execute our strategy on how to identify the best new healthcare ventures in various markets and industries.
- Evaluate business ideas and build the foundation of our selection decisions by conducting market research, deep-diving into new industry sectors, due diligence of proposed pitch decks, validating hypotheses by interviewing experts and potential users/customers, etc.
- Conduct financial analysis and technical research at all stages of the deal flow incl. financial models, metrics analysis, and competitive analysis.
- Support in all fields of portfolio management, such as business and financial plan validation, tracking of key metrics and reporting.
- Communicate complex ideas simply. Assist the investor relations team in translating complex financial and technological analysis into simple and high-quality communication for investors (teaser, DD report, quarterly reporting, etc.).
- Attend pitch events for our portfolio, meet entrepreneurs, industry partners and build relationships within the ecosystem to best help accelerate the growth of our portfolio ventures and identify new investment opportunities.

WHAT YOU NEED TO SUCCEED

- As a young company we look for different backgrounds and characteristics. We are looking for applicants with diverse backgrounds and welcome candidates who are new to the VC world but eager to learn. What matters to us most is your motivation and passion for technology and finance. A strong interest in healthcare, digitization, FinTech, new trends and innovation is a must.
- Outstanding analytical skills with attention to detail, ability to research quantitative and qualitative topics.
- A creative problem-solving mindset with the ability to tackle various conceptual and strategic topics in a fast-paced environment.
- Ability to effectively communicate with diverse target groups, incl. start-ups, investors, corporate partners, etc.
- Entrepreneurially minded and a strong team player with the ability to prioritize and manage many tasks in parallel.
- Min. 5 years of relevant work experience as an Investment Analyst (i.e. Venture Capital, Consulting, Start-up, Private Equity, Audit/ Controlling), preferably within the healthcare space.
- University degree with a record of high academic achievement, Master's degree desired. Preferably in business, finance, economics, natural science, or similar fields.
- Fluency in German and English. Further languages would be an asset.

If you are highly driven and would like to join us in our mission to transform venture capital, we warmly welcome you to a dynamic, motivated and successful team with an open and flexible working environment.

Please send your CV and personal statement as well as your salary expectations to hr@aescuvest.eu.
