

11th Edition

GLOBAL BLOCKCHAIN CONGRESS

March 6th & 7th, 2023 | Dubai, UAE Sofitel Dubai The Obelisk

A Word From Agora

Jad MalaebChief Content Writer
Agora Group

Dear delegates, guests, sponsors and speakers,

It was a great pleasure to be your host at the 11th Global Blockchain Congress at the Sofitel Hotel in Dubai, the UAE. We were honored to receive a tremendous turnout despite the turbulent time in the market over the past year and a half. Your presence was a symbol of the blockchain community's tenacity and of the Global Blockchain Congress' state as a constant bridge of value between industry stakeholders.

The GBC has a tremendous track record in the UAE, a country it now considers home. We have hosted more than 1,250 investors and 275 blockchain projects across all GBC events. Attending projects, who come to us

from all around the world, have raised millions of dollars and developed priceless partnerships through connections developed at our events.

The 11th edition was another successful iteration of the GBC. Between March 6 and 7, we welcomed more than 50 speakers, 150 investors, 18 sponsors, 25 media partners and more than 300 delegates. We had special guests coming from the newly-launched Venom Foundation and Iceberg Capital funds, together controlling more than \$2 billion in capital aimed at Web3, blockchain and crypto projects.

The presence of a high quality and quantity of funds, venture capitalist groups, high-networth individuals, sovereign wealth funds and family conglomerates provided an auspicious landscape for our 18 sponsors to share their visions. We are happy to have delivered on our promise of putting our sponsors face-to-face, via our one-to-one meeting format, with some of the most coveted financiers in the MENA region.

To our sponsors and investors, we extend our gratitude

once again, for it's your presence and belief in these events that make the GBC so special. The success of our event would've been difficult without support from our partners TDeFi, Kelsier Labs and Crypto Oasis -- we appreciate you greatly.

A final note: We are proud to announce that the GBC is now traversing international waters and heading around the globe. The first European Edition of the Global Blockchain Congress will take place on July 24th and 25th in London, England. Like all our events, this will be an exclusive, closed-door congress pairing blockchain sponsors with investors actively looking to inject capital and develop partnerships.

We hope to see you all there.

Wow what a week it has been! To eDubai never falls to amaze us, and participating in the AppraGroup 11th Global Blockchain Congress was an absolute delight.

On behalf of the entire Futurent to team, I want to express our heartfelt gratitude to Obai Khaddai and his team for giving us this opportunity. We went in with high expectations, but the experience was beyond anything we could have imagined.

From the fantastic evening events to the impressive panelists linear, we were surrounded by so many intelligent and talented people, and we made some incredibly promising connections that will exceed our #network. We causht up with some old friends and made some exciting new relationships too.

We took 35+ meetings in just three days, but every second of it was a thrill, and we're already looking forward to our next visit. O

1/4 Had an awesome conversation with co-panelists Francisco Oliva-Vélez (Plaintext Capital), David Chreng (@LeadBlockP), Asim Ahmad (@eternacapital) and moderator @ifpereira1 (Caerus Ventures) at @AsoraGBC today! Here's a key takeaway recap:

Thrilled to celebrate 3× years of fruitful partnership with AgoraGroup - a collaboration that has spanned over 6 editions of their highly successful crypto event Le Global Blockrhain Congress.

As Agora Group continues to facilitate funding opportunities for innovative crypto projects and connect investors with cutting-edge technology, we've been proud to provide our support and expertise every step of the way. It's been an incredible journey thus far, and we're excited to see what the future holds for our continued partnership.

We congratulate Hadi Malaeb , Obai Khaddaj and entire team of Agora Group for the success of 11th Global Blockchain Congress.

Last week, I had the pleasure to participate as a moderator in a panel discussion at the AgoraGroup Global Blockchain Congress to discuss if Digital Assets Safe Havens Analog Inflation.

We had great thinkers and experts in their field:

Kevin Quintanilha: Myself, Fund Manager at whale, one, who moderated the panel. Sam Katiela: CEO & Founder, Mamemo Consulting, a resourceful man who spoke Paula Tavangar: Principal, Swissflorg Ventures, with a professional approach in the

Maher Al Kaabi : Independent Board Member at Alserkal Group and Co-Founder of BlinkO, who brought interesting points and expertise to the discussion.

Of course I want to thank the Agora team which is extraordinary like always Chair Khaddai, Farah Aridi, Yamen Khaddai, Thanks to Hadi Malaels, and Rim El Aridi for their kind invitation to be part of such a great event.

Talked at AgoraGroup Blockchain Congress in Dubaias on the challenges for cryptoadoption these days.

The last year bankruptcies and frauds may be a good thing, as we learn from the past mistakes and it leads the path to more quality projects. We still need more clear regulations.

At the same time the interest of institutional investors is rising with BlackRock, J.P. Morgan, Goldman Sachs, BNY Mellon and other major players getting involved.

I recently had the privilege of speaking at the 19th Global Blockshain Congress! The room was filled with industry professionals eager to learn and share insights. and it was truly an honor to be able to contribute to the conversation.

Had a great event at the Agora Conference in dubal recently. One of the conferences where we have found interesting startups to invest in like Casper Labs Cross The Ages and PraSage. Thank you to Hadi Malaeb. Rim El Aridi and the #AgonaTeam for

organizing a great show that is personal in nature and has great interactions. Markets are red and investors are shaken but builders have been full of energy from Denver to Dubai and that makes it an interesting scenario for us at Cypher Capital Group as we are truly invested on the future of Elockchain Adoption, what has been astonishing has been the 100Mn Wallets that were added on top of 300Mn existing wallets in 2022. the Bear market saw a 33% increase in wallets... truly a good indicator on the on ground metrics

On Mar 06, 23, I had the pleasure to participate in a panel discussion at the 11th @Agora Global Blockchain Congress to discuss 'Are Digital Assets Safe Havens Societ Inflation?"

Was joined by great people and experts in their field:

Kevin Quintanilha: Fund Manager at whale one, who moderated the panel with

Sam Katiela: CEO & Founder, Mamemo Consulting, a butting man who became a

Poula Tavangar Principal, SwissBorn Ventures, a professional with a balanced view. Maher Al Kaabi: Independent Board Member at Alserkal Group and Co-Founder of

Mainly covered below are key topics among others:

How do you think digital assets can be used to protect against rising inflation? How have cryptocurrencies performed in volatile market conditions and during recent inflation in developed markets?

Can digital assets serve as safe havens against inflation, and how do they fit into a honadar imperment nortfolio?

How can investors manage the volatility of digital assets in a portfolio, and what strategies can be employed to rusvigate this risk?

How do you see regulation evolving in the digital assets space, and what impact will this have on the market? What advice would you offer to investors considering adding digital assets to their

portfolios in the current economic climate?

Special thanks to Hadi Malaeb, and Rim El Aridi for their kind invitation to be part of such a great event. Rishabh Gupta, and Obai Khaddaj.

So my week in Dubai starts with the Agora Global Blockchain Congress, Looking forward to some great presentations & panel discussions, as well as meeting some thought leaders, entrepreneurs & pioneers in the Blockchain and Digital Assets. space. So far so good.

What will be the future of gaming?

Together with Mehdi Faroog, Serge Ajamian, Rishabh Gupta and Ilya Tokhner, we had a review on how gaming can evolve through blockchain technology.

Some of the key takeaways Q

 Gamers make up more than a third of the world's population with over 3 billion. active users (Source: Statista)

•The gaming sector is highly diverse in terms of its user base, sub-genres and devices used and is expected to grow by USD \$83.69 billion in 2030 (Source: Grand

«Combining gaming and blockchain provides new opportunities for players such as ownership of in-game assets, ability to earn while playing with NFTs and token

«Current challenges regaln sustainable tokenomics design and player onhouseling to drive user adoption in the long run

«Common agreement that fun experience of a game should be the priority for all Gameli projects to ensure user retention and sustainable growth

I had a chance to share my thoughts on the Future of Web 3 gaming at the Global

Blockchain congress, 11th Edition, by Agora Group, The gaming industry is already massive, generating over \$300 billion in revenue and an estimated 4 hillion users and players by 2025. However, the adoption of

web3 gaming is still in its early stages, with less than 10% of the world's gaming. population having tried it. Web3 gaming can change how we think about gaming and digital ownership in

games. It could offer new opportunities for players to own their in-game assets and for game developers to create more immersive and engaging experiences. However, it's important to note that gamers are primarily interested in the quality of the game itself rather than the potential for earning tokens or other rewords.

Testimonials

Futurent has had the pleasure of being part of several Agora events, and they have consistently exceeded our expectations. We acknowledged it as our main priority – a top fundraising event globally, so we anticipated great things from The Global Blockchain Congress, but the event managed to surpass even our highest expectations.

Despite the challenges that the fundraising landscape has presented recently, attending the Blockchain Congress was an experience that makes you want it to last. It brought together exceptional minds, superb organization, and vast potential right in the heart of Dubai – everything we could have wished for. Our utmost appreciation goes to the incredibly supportive Agora team for making this event possible 6 we eagerly await our next opportunity to come together at the highly anticipated premiere in London.

Alen Dolsak - Futurent, CEO & Founder

Thank you so much for the opportunity to be part of your 11th GBC. I wanted to express my sincere appreciation for the excellent organization of the event. Everything ran smoothly, and the attention to detail was impressive.

In addition, the venue was perfect and provided a great atmosphere for the event. I also wanted to mention that the level of the attendees was very high, which made for some fantastic discussions and networking opportunities. Overall, it was a truly positive experience and I look forward to attending future events organized by Agora.

Josep Aliagas - DIS Capital, Managing Partner

The event is a great platform for professionals gathered under one roof to share current trends in various 'Digital Assets' and showcase their experience and foresight of upcoming developments. Additionally, the event also provides a platform for startup companies to share their development and create an echo system for collaboration.

Maher Al Kaabi - Alserkal Group, Independent Board Member

Thanks again for the invitation! Everything was great. Lots of new connections, and new promising startups that we find because of Agora's networking event. It's pity that I missed the 10th edition due to business trips. I won't miss your event next time!

Taras Marchuk - Astra Capital, Co-Founder & Partner

The cocktail party was a convenient and effective way to network and settle into the event. It provided an excellent opportunity to meet new people and make valuable connections.

The event was a great platform to showcase our product and get valuable feedback from potential investors and partners.

Lastly, the gala dinner was exceptional and a night to remember. It was great to get to know everyone better and build relationships for the future.

Overall, I am happy that the event was a success, and I look forward to returning with future projects. Thank you again for the opportunity to be a part of it!

Khaled Jama - GameVerse, Founder & CEO

It is my second edition at Agora and I keep saying that it is the best event an investor or a project can attend.

Panels are interesting but not only that, the crowd is exactly what you are looking for. A connection between serious investors and ambitious projects. The organization is smooth and the team is helpful and professional. Raising funds or looking for connections and projects? Come to the next edition of Agora, and I'll see you there!

Kevin Quintanilha - Whale. One, Fund Manager

I have been participating Agora event for the past few years and I find it very useful for project owners to match make with potential investors and users! Keep up the good work Team Agora and continue with the match making event. The blockchain and new technology projects need such events to have another avenue of raising funds.

Meng Chan Shu - Connect Blockchain DMCC, CEO

Agora certainly was one of the better events I've attended this year where the management brought together a very selective and curated set of builders and backers under one roof. Thanks to Hadi and the team for being such a great host!

Nilotpal Mukherjee - Momentum 6, Partner

It has been an honour and privilege for so many members of the Cypher Team such as our Chairman Bill Qian and our CEO Vineet Budki to have been invited to speak at and participate in the most prestigious and most innovative events in the web3 and Blockchain industry. I can confidently say, without fear or favor, that GBC matches these events stride for stride. One simply needs to look at the luminaries in attendance to know how well regarded this event is and deservedly so. We at Cypher Capital will be back next year. Agora remain best in class when it comes to arranging these events and their continuous striving to further improve their offering serves them exceedingly well.

Cypher Capital

From an organizational view, everything was very smooth. Checking in and organizing the sitdowns with the different projects was very well executed. The Gala Dinner and Cocktail Reception were fantastic as it allowed for great networking opportunities and created a nice tight knit environment.

The presentations were very well done and appropriate given the current climate of the market. I walked away with some nice insights and perspectives I would've not thought of.

Overall great experience and looking forward to the next one!

Emilio Padulo - Animoca Brands, Senior Tokenomics Analyst

Agora has exceed my expectations on how a Project-VC event should be organized. The meetings were well organized, well paced and every project was given sufficient time to introduce their concepts to the VCs, with enough off time in between to socialize and mingle around with the rest of the participants. It was one of the events that I find that the fees was worth every dollar spent, and was happy to take away the experiences, lessons and contacts obtained in this 2 day event. It has been an honour to be invited by Agora to come and pitch Staynex at the event and will be keen to attend future versions.

Bernard Lau - Staynex, CEO & Co-Founder

Agora has been a staple in Dubai crypto events over the years. They continue to bring together thought leaders, investors, and unique perspectives in a fantastic setting. I highly recommend this conference!

Jeremy Wallis - New Form Capital, Founding Partner

The Agora Group are great hosts! As always, the event was extremely well organized with well curated startups and investors. It was great to catch-up with some old friends and also make some new acquaintances.

In addition to the strong startups and investors, the keynotes and panel discussions provided a solid backdrop of the latest happenings in Web3. They made sure that everyone felt welcome and took extra care to connect people. A must-to-attend if you're in the region. I'm already eager for the next one!

Amit Mehra - Borderless Capital, Partner

Thank you for making sure I attended the GBC this year. It is by far my favorite event of the year due to the one on one access with the founders which saves so much time in evaluating potential new investments.

I would like to pass my sincere regards to the founders of Agora as they have consistently went above and beyond in my expectations of organizing events, timeliness of schedules and making it both a pleasure and productive experience.

Hussein Tantawi - Iceberg Capital, Director

Agora's GBC was an incredible experience from start to finish!

The team did an excellent job of providing opportunities for networking among attendees, which really added to the overall value of the event. It was clear that a lot of care and attention had gone into planning the event and making sure that everything ran smoothly.

If you're interested in crypto investments, this is the event for you.

Danut Topala - Iron Capital, Founder & CEO

Agora has consistently put on one of the marquee events of the Dubai Blockchain events calendar. Great to meet founders and experts from around the globe, flocking to the Crypto Oasis.

Saqr Ereiqat - Crypto Oasis Sentio, Co-Founder & Managing Partner

GBC 2023 Dubai was a great experience! It was our first time there and we were positively surprised by the caliber of investors & founders alike.

Thanks to Agora's matchmaking we had over 15 investor 1-to-1s and many more informal chats. Presenting on the main stage as sponsors also gave our project much greater visibility across all attendees. The social events, accommodation, and conference venues were all great too. Shout out to the whole Agora team for being super responsive and helpful before and throughout the event!

We'll definitely be back for the next edition!

Edoardo Testa - Angelo, Co-Founder & COO

We have seen our projects go from start-ups to investors and larger grant providers, just through the lenses of Agora's GBC.

I think it is a great platform for investors and start-ups to meet. The format is amazing θ I think they're the only ones to do it right in this region.

Gaurav Dubey - TDeFi, Founder & CEO

Thank you again for inviting BitRock and me to the conference. The event was very well organized and focused. The speakers, especially the keynote speakers were very high caliber subject experts and the social θ networking events were well managed and efficient.

Overall, it was an excellent event - Agora's team has done an outstanding job.

John Peng - BitRock Capital, Founding Partner

Thank you for having me here at the Global Blockchain Congress in Dubai. It's been an absolutely fantastic two days. I've had amazing meetings with investors who are interested in our project. I think that Agora has done a really good job of putting great startups with great investors together and kept to that promise. It was definitely worth the 13 hour trip from Berlin!

Daniel Grove - Lost Club Toys, Co-Founder

This is the 4th time that we have participated in Agora's GBC and Agora's team have been nothing but utmost welcoming θ very helpful to our project!

Every time that we were working on a fundraise, we've been treated very kindly and they've been bringing investors and helping our project grow. The level of follow-up after the events are very critical and they've been doing an excellent job both pre and post event.

I couldn't recommend the Global Blockchain Congress more.

Neil Kapoor - Casper Labs, Business Development

I think this year's 11th version of the GBC was fantastic. Agora has done a great job of curating some of the greatest minds in the region and internationally to really bring us all together.

I think what I love the most is that it's small & intimate. It's not a 10,000 person conference and really the folks you meet can identify how they can work with you, how you can work together and collaborate on numerous projects and also on fundraising.

I suggest anyone to come and checkout the conference if they can!

Yasin Aboudaoud - Brinc, Managing Partner

The GBC exceeded my expectations with its impressive lineup of speakers, prominent investors, and reputable companies. As CEO of MYFC, I was thrilled with our experience at the event. The organization was top-notch, allowing us to schedule and successfully conduct over 25 meetings with potential investors in just two days. Overall, it was a very positive and productive experience for us

Hugo Cortez - MYFC, Co-Founder & CEO

I just want to extend my extreme appreciation to Agora Group for not only inviting me and giving me the chance to speak, also for being so flexible in terms of the schedule and working with me on that. I have to say this is one of the very best events that I've ever been to. Both the organization of it and the people that attended it, so thank you very much.

Peter Knez - Venom Ventures Fund, Chairman

It was a pleasure to attend both days of the GBC this year. I truly enjoyed meeting a lot of familiar faces from the investing circle in Dubai. Also, the projects introduced were very interesting.

Some of the best parts about the event are: few people but good people, great personal attention from the team, curated list of startups and speakers, θ great venue and hospitality.

Pranay Agarwal - Foundership Capital, Head of Capital

The GBC was a high quality event and it was great to be among other projects and VCs who know what they're talking about and share the same vision for blockchain tech.

Overall, we are satisfied with the conference, especially the face to face meeting with VCs.

Ed Ball - AmazeWallet, COO

Thank you for hosting me at the 11th Edition Global Blockchain Congress. It was a pleasure attending the event, and I appreciate the effort put in by the team to make it a success.

The speakers were knowledgeable and provided valuable insights into the blockchain industry.

Paolo Ghisotti - FiveAlpha Asset Management AG, CEO

It was a great event, θ we're already looking forward for the next Agora destination

A big thank you to the team for all the preparation, hopefully we'll get the opportunity to meet soon.

Khalid Mazouz - 8186 Capital, General Partner

I have seen GBC grow hugely since its inception. Perhaps one of the best private events Middle East has got so far. Really enjoyed being a part!

Ritam Gupta - Nonce VC, Partner

From all the events in Dubai, Agora's event has the best quality audience, focused on right objectives and most of all - great family-like organizers. Love to be part of it any day!

Karnika E. Yashwant - Utopian Capital, Founder

I would like to pass on my sincere thanks to the Agora team. THE GBC was very well organised with some very interesting projects.

I met some wonderful people and have passed a couple of projects to my investment committee for review. Thanks for a great event!

Kevin Ballard - Block Asset Management, Founder & CCO

Overall, it was a great and well-organized Agora event in terms of the quality of participants, meeting arrangements and agenda. The exclusivity of the attendees made it pleasant to network and connect with like-minded people. The panel discussions and keynotes were diverse and fruitful and covered the most relevant blockchain and Web3 topics.

Sarah Abuagela - Ceras Ventures, Head of Investment

It was an amazing experience to meet all the Blockchain ecosystem leaders at one place and to understand their perspective towards Blockchain ecosystem. Agora group as usual nailed it with no compromise on anything else than the industry standards.

Pathanjali Sharma - AlphablockZ Ventures, Vice President

I was very impressed by the curation of attendees, the right balance of talent and investors, and by the competence level of everyone. I'll be back for sure!

Fabio La Franca - Blueverse Ventures, Founder & CEO

A very well organised event with quality people and arranged in a setting where people can network comfortably.

Asim Ahmad - Eterna Capital, Partner

It was an honor and privilege to participate and speak at the 11th GBC. Ghaf Capital has had a phenomenal relationship with Agora, and we look forward to future events and future collaboration.

Ilya Tokhner - Ghaf Capital Partners, Partner

Agora pulled off yet another successful Global Blockchain Congress less than 4 months after the last edition. The quality of the start-ups presenting was better than I expected and the panel discussions were full of high quality content. The venue, although no quick escape to the beach was possible this time, was excellent with great food and beverage experiences. Big kudos to the Agora team for a superb organization and considering attending the Southeast Asia edition in the fall.

Hans Diederen - Apollo Crypto, Executive Advisor

The Agora event is an important and essential part of the ecosystem, as it became a platform of interesting personalities, sophisticated content, and a wonderful place of exploring, discovering and as well making potential leads for business outcomes in the future. I would highly recommend for everybody to be part of it, to visit it, and as well to get involved.

Sam Katiela - Mamemo Group, CEO & Founder

It was a pleasure attending Agora's GBC 11th Edition, Dubai. The venue was fantastic, the organisation was exemplary, and the Agora Team's superb energy facilitated networking and interaction throughout the different events leading to new/deeper relationships to push Web3 forward collectively. Many thanks, Agora Team!

José F. Pereira - Caerus Ventures, Investments

The Global Blockchain Congress was a great event for variety of Blockchain projects to meet and pitch to Investors in the ecosystem.

Thank you for the invite and hope to see you at the next version!

Ahmed Tehemar - Binance, Global Business Development Manager

The event was incredibly well organized, and it was great to see so many high-caliber people in attendance. Thank you so much for all your hard work in putting it together. I'm already looking forward to the next one and can't wait to see what you have in store!

Zaher El Orm - DMCC, Executive - Crypto Centre

Agora's Global Blockchain Congress is one of the top events in Dubai's calendar.

Agora Group always brings together the best talents, enterpreneurs and investors, enriching the Dubai's existing blockchain ecosystem. It is a great platform for all attendees to learn, to be motivated and understand investment opportunities in this emerging technology.

Sai Kunnath - Masary Capital, Co-Founder

Congratulations to Agora group on successfully holding another rocking Blockchain Congress. It's a testament to Dubai's leading position in this space. Despite the bear market sentiments, it attracted many investors, top executives and startups alike. Agora's GBC has stamped its authority as the leading event in Blockchain in this region.

Samir Jain - Belkota Holding, Managing Director

Over the years Agora has gone from strength to strength, energising trends that matter and bringing experienced people together to generate opportunities of global importance and material value. As volatility increases across the world's markets, sentiment is driving a massive flight to quality: way ahead of competition, this is where Agora wins.

Alex MacDonald Vitale - Titan Advisory AG, Founder & CEO

It was a pleasure to speak at such a prestigious event with a cohesive network of metaverse enthusiasts and blockchain enablers. The hosting was excellent and provided an efficient platform for communication between start-ups and angels/VCs. Thank you!

Deeban Ratneswaran - GD10 Capital, CEO

Agora's 11th GBC was a great success for Wild Meta Earth: the occasion to finalize our seed round with the best partners!

Thanks again for a great organization and networking possibilities.

Adrien Moisson - Wild Meta Earth, Founder & CEO

The Global Blockchain Congress is a fantastic networking opportunity with a great mix of founders, investors and industry thought leaders. I especially enjoyed the strong focus on connecting startups and investors. Overall a fantastic event and great execution by the Agora team! Excited for the next events to come!

Tobias Bauer - Blockchain Founders Fund, Partner

This is the first time I attend Agora's GBC in Dubai & I really enjoyed being here with likeminded people. Overall, I really had a great experience, especially meeting very diverse people from different industries of blockchain. Looking pretty much forward to the next event to attend!

Sarah Abuagela - Ceras Ventures, Head of Investment

It's the first time that we come here to Agora's GBC and it has been an amazing experience. We met so many investors, so many other start-ups and big players in the Web3 space. It is absolutely fantastic to be here in Dubai, so we look forward to actually coming back next year and making even more connections!

Sara Simeone - Niftyz, CEO & Co-Founder

It's my first time here at Agora's GBC and I should admit that I have never seen such a huge amount of quality and relevant people. This is an amazing selection of the best people from blockchain industry and I'm super happy to be a part of it.

Yana Levkovich - Blockchaincentre.io, Senior Consultant
