THDP design DoubleTree by Hilton Rome Monti

THDP has revealed the design of DoubleTree by Hilton Rome Monti, inspired by the colours, textures and lifestyle of the surrounding city.

25/06/2021 • 3 min read

DoubleTree by Hilton Rome Monti is located in a strategic position, in one of the most iconic and ancient neighborhoods of the city: the Eione Monti, proudly the first district of Rome, a dynamic and eclectic artery that develops around the Via Urbana and Piazza Esquilino, on which stands the Basilica of Santa Maria Maggiore. Initially, this beautiful district was called Monti because it included three of the seven hills: the Esquilino, the Viminale, and part of the Quirinale.

The hotel overlooks Piazza dell'Esquilino, near Termini station, from which you can walk to all the main points of interest of the city. The area rotates around Piazza Madonna dei Monti, which still serves as a centre of aggregation for local residents and tourists – the Monti district is the place to spend the afternoon peeping in the shops, browsing old books and having coffee in the most chic cafes in Rome.

The hotel houses a large lobby across the entire ground floor – a bright, open and dynamic place with a large skylight, inspired by the Roman garden at the centre of the peristyle. Here THDP has created a space to stop and relax – a reading, meeting, and relaxing area with flexibility in mind. The mood is residential and eclectic, with furniture by Saba Italia, Vibiaffe, Biliassi and Expoemian upholstered with soft fabrics in rich warm terracotta, dark gold and dark burgandy. THDP custom designed some of the carpet in the hotel, with patterns inspired by the existing mosaic flooring of the Caracalla thermal baths.

Common areas include the Mix bar and café, and Mamolla restaurant equipped with an open kitchen and wine tasting area. The restaurant offers a relaxed seating arrangement, with long social banquets in vibrant orange offering a space for shared and social meals. All ceilings are sprayed in anthracite acoustic foam Sonar Spray by Oscar Acoustic, and the central area of the restaurant flooring is a mix of cementstone effect tiling in terracotta, green and black tones, surrounded by UV oiled flooring by Harwoods.

On the 8th floor the Mix rooftop bar and panoramic terrace looks across Rome. The walls are finished in a dark ochre plaster, reflecting the view of the facades outside. The seating is part dining, with outdoor metal furniture by [Ligne](#) and part lounge and informal with outdoor fabric stools and sofas by Atmosfera Italia and Talenti. The flooring is in a roman terrazzo with light marble pieces by Grandinetti, whilst the outdoor terrace features decking-like flooring by Florim.

Ronda 2.0

It is a challenge to re-design perfection. Nonetheless, our Italian designers have taken the original Ronda, created in 1997, and perfected it to the Ronda 2.0. The innovative one-piece design for the seat and back follows the curves of the body to amplify support and comfort. A newly designed mesh makes this collection practical and strong, yet lightweight enough to stack. Made using the same patented e-coated steel process as the original, Ronda 2.0 is durable and perfect for any patio. This collection consists of a sidechair, armchair and barstool.

Kalamazoo
The Shokunin Kamado Grill

Kalamazoo introduces a strong modern design perspective to the Kamado category. The Shokunin Kamado Grill is taller, so it's more versatile—fire can be built further below the food, on the lowest of three levels. The insulation has been dialed up, cross-flow ventilation redesigned, and multi-zone cooking made easier. The construction is masterful: built with incredible precision and attention to detail.
