# APN settings

If for some reason the Internet settings have not been saved or have not been received, check the APN access point yourself.

“Settings” - “SIM-cards and mobile networks” - “Your card” - “APN access points” - select an access point and make sure that you have data.lycamobile.ua in the APN section and leave the remaining items intact.

APN Access Points

If for some reason the access point is missing - create a new one.

Name: Lycamobile  
APN: data.Lycamobile.ua
