

MEDIACARD

12-14. Oct 2016

Messukeskus Helsinki

Waste, Water, Environment 2016 presents the essential products and services of municipal and environmental engineering and waste management at Messukeskus Helsinki 12-14 Oct2016

Exhibitors:

Manufacturers, service providers, importers and other companies in the field of waste management, recycling and environmental engineering.

Visitors:

Decision makers and other experts of environmental issues, waste management, water supply and energy issues in municipalities, associations of Finnish local and regional authorities and the government. Also decision makers and experts from the private sector.

Benefit from the appeal and supply of a mega event

Waste, Water, Environment is organised at the same time with Finland's leading event for the construction industry and building services, FinnBuild. Also InfraExpo - fair for technical infrastructure, Arena - fair for constructing sporting arenas, and ViherTek - event focusing on the design, construction and management of green areas, are all organised at the same time filling Messukeskus Helsinki with experts from different fields. In 2014 the event combination gathered 24,792 visitors.

Meet your customers face to face in Finland's top event for waste, water, and environmental and municipal engineering in 2016.

Meet decision makers, your existing clients and potential customers. Present your products and services to the right group of people face to face.
