

Collaborative Managed Inventory (TecCMI)

Joint logistics platform for trade and industry, specialising in the motor vehicle spare parts market

Collaborative Managed Inventory is the IT-based logistics platform for industry and trade, specialising in the independent motor vehicle spare parts market. The standard solution handles the planning, forecasting and replenishment, resulting in automated and cost-optimised stock planning. The solution Collaborative Managed Inventory unites all conventional, recognised and tried-and-tested statistical material planning procedures. The results are clearly illustrated in a graphic interface. Collaborative Managed Inventory is available on a service basis and thus requires no investment in your IT infrastructure.

What does the solution consist of?

- Remote Desktop Connection

Article assortment
Predicted purchasing volume
Order proposal
Open orders
Inventory

What does the solution do?

Execution of joint planning, forecast and replenishment processes, for automatic, cost-optimised material planning for your articles

Inventory management with Collaborative Managed Inventory

Inventory management with Vendor Managed Inventory

Daily transfer of:

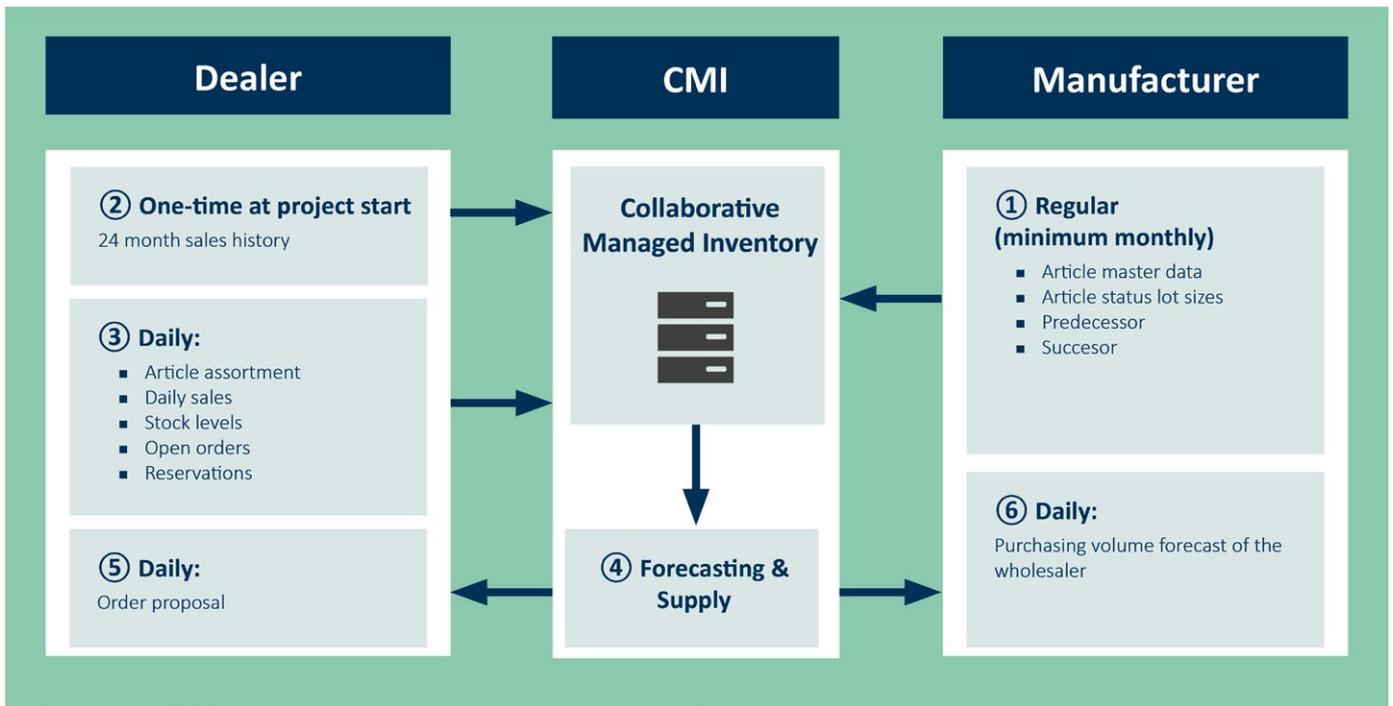

- Article product range
- Sales
- Inventory
- Outstanding orders
- Reservations

Results:

- Order proposal for the distributor
- Forecast purchasing volumes of the suppliers

Automation of replenishment

The solution at a glance:

Why Collaborative Managed Inventory?

- **Cost reduction:** a transparent stock/order situation allows collaborative partners to lower their stock keeping and processing costs.
- **Warehouse optimisation:** Spare parts manufacturers and distributors optimise their inventories, reduce supply bottlenecks and optimise replenishment thanks to close and automated cooperation.
- **Effective analysis tool:** A precise analysis shows you the weak points in the entire process chain. That lets you concentrate on managing your product range and optimising articles.
- **Efficiency:** Thanks to reliable sales forecasting, your orders are cost-efficient.
- **Service focus:** Spare parts manufacturers and distributors work in close cooperation. This increases sales for both parties.
