- Schaeffler
- SKF
- TMD Friction
- ZF Friedrichshafen

# How the solution works

# Why Collaborative Managed Inventory?

## Article assortment

Predicted purchasing volume

Order proposal

Open orders

Inventory

- **Cost reduction:** transparent stock/order situation allows collaborative partners to lower their warehousing and processing costs
- **Warehouse optimisation:** spare parts manufacturers and distributors optimise their inventories, reduce supply bottlenecks and optimise replenishment thanks to close and automated cooperation
- **Effective analysis tool:** Precise analysis shows the weak points in the entire process chain and lets you concentrate on managing your product range and optimising articles
- **Efficiency:** thanks to reliable sales forecasting, your orders are cost-efficient
- **Service focus:** spare parts manufacturers and distributors work in close cooperation which increases sales for both parties

# Why TecAlliance?

With data, processes, integrated solutions and comprehensive consulting services, TecAlliance creates an infrastructure for the market participants in the digital aftermarket that makes you more successful for the long run.
