Enabling the Digital Aftermarket
Order (TecOrder)

Electronic order platform for the independent automotive aftermarket
Order

- Electronic communication platform for automation of purchaser-supplier processes
- Check availability in the online dialogue and order spare parts
- Through supplier responses orders are confirmed, deliveries announced, and invoice data transmitted
- Standardised message formats used for data transmission
- Various integration levels and interfaces available for both the purchaser and the supplier
- Ensuring optimum inclusion in the existing process

Why Order?

- Complete solution to **automate, accelerate, simplify** and **reduce the costs** of ordering parts between purchasers and suppliers

- The orderer...
  - ...benefits from the direct electronic connection of all of its suppliers
  - ...can respond more quickly and offer an enhanced service to his customers

- The supplier...
  - ...can automate and optimise its order processing
  - ...can confirm orders, announce deliveries and send invoices in a fully integrated way
  - ...can increase customer satisfaction thanks to shorter response times
Why TecAlliance?

With data, processes, integrated solutions and comprehensive consulting services, TecAlliance creates an infrastructure for the market participants in the digital aftermarket that makes you more successful for the long run.
