Data Management Module PMD R2

The data management tool for data providers that place high demands on a maintenance tool and for whom a distributed installation of the product within their internal infrastructure is important

Data Management Module PMD R2

- Customer specific software expansions via COPs (Customer Option Packs)
- Access to database via Talend (subject to addition license fees), e.g. for connection to in-house ERP system
- Use of internal reference data via the TecDoc Plus function
- Management of competitor brands
- Marking of articles as internal or external (Data Channel Management)

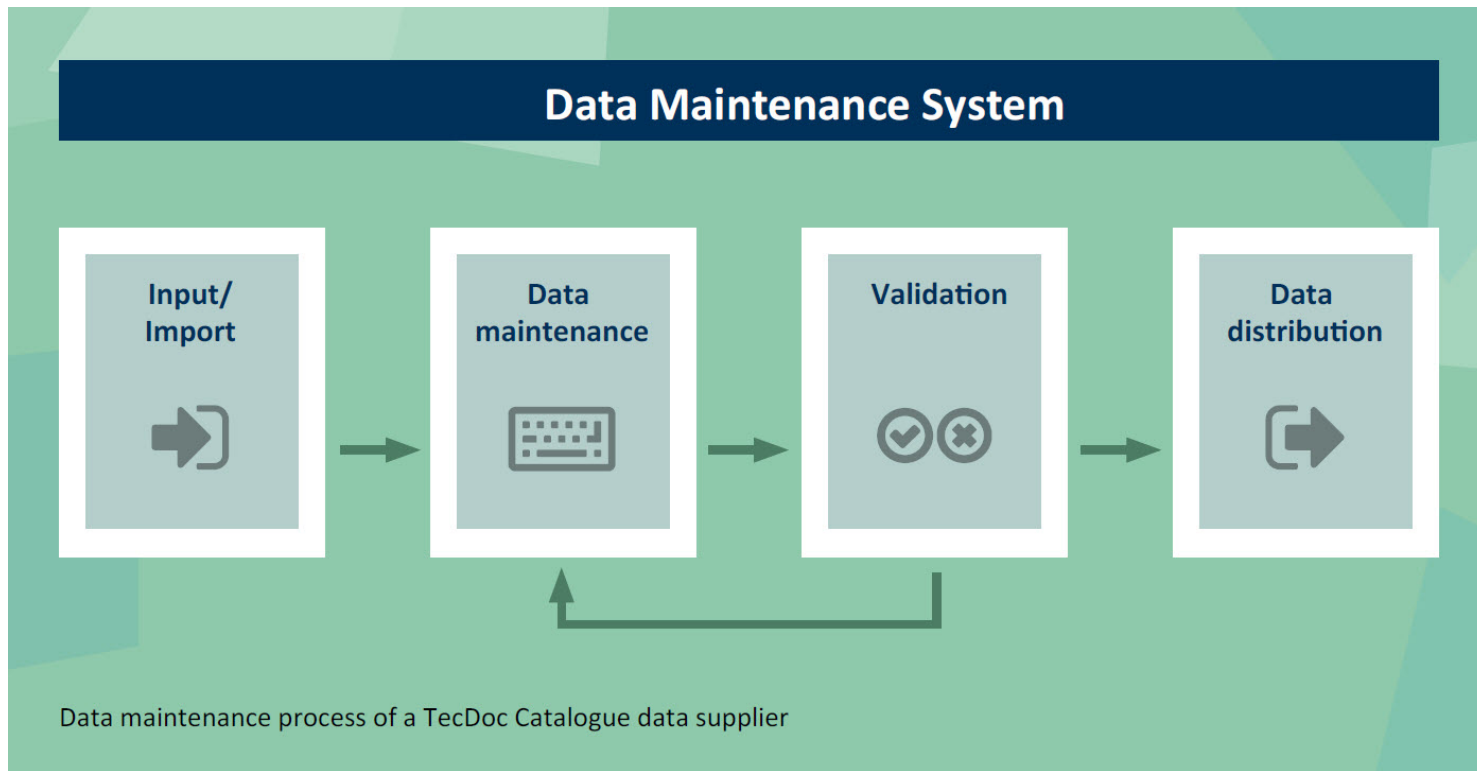

The solution at a glance

- Roles and rights administration
- Article data and link maintenance
- Data input
- Data export TAF 2.2a + 2.4
- Context-sensitive graphics
- Data import TAF 2.2a + 2.4
- DB access (Talend, additional license fees)
- Multi-user capacity
- Data validation against TecDoc inspection catalogue

How the solution works

Why Data Management Module PMD R2?

Article maintenance

Roles and rights administration

Data validation

Multilingual
