

We do,  
what we love.

## UX-/DIGITAL PRODUCT DESIGNER [m/f]

starting date: as of now, Frankfurt/Main, fulltime

*Savedroid creates a unique AI-fueled ecosystem of crypto saving and investing for the masses.*

### Your tasks

- You are responsible to create top-notch UX Concepts including User Research, Information Architecture and prototyping for our app presenting the outcomes of your work and discussing it within the team
- You work hand in hand with developers, marketing managers, business developers and support in an agile environment to create new features, feature enhancements and supporting projects
- You analyze user behavior from app-usage data and elaborate hypothesis to enhance our product
- You are responsible for planning, carrying out and elaborating User Interviews, Focusgroup Discussions and Usability Tests

### Preferred Skillset

- You are able to justify the decisions manifested in your concepts against stakeholders within the company
- You know how to convert abstract and complex topics to graspable concepts
- You have a good knowledge about mobile patterns and know how to conceptualize user interfaces and digital services from scratch

- You are able to accept constructive criticism and understand that user experience design should be based on evidence like usage data and user behavior, not only on theoretical knowledge and assumptions
- You have good english knowledge to communicate verbally and in written language
- Fluency in German is a must!
- If you have sophisticated User Interface Design and Coding Skills that's an advantage

### Benefits

- A salary package consisting of an attractive fixed salary, an employee stock option program and savedroid tokens
- Responsible for diversified tasks in an exciting industry with
- Team-oriented, open-minded working environment with dynamic colleagues, super team-offsites, sport & socializing events & much more
- High learning curve
- Burn-Out-Protection-Dogs: Lila & Jewa
