

Amitia s.r.o.

Development of the PLAiN AI platform for Intelligent Production Planning and Optimization

UNIQUE SELLING POINTS

- Proprietary AI and production planning algorithms
- Deep expertise gained from industrial AI projects
- Flexible integration with ERP and MES systems
- A solution tailored to each customer's specific manufacturing processes
- A unique combination of AI expertise and extensive experience in manufacturing digitalization
- Phased implementation with a rapid return of investment

VISION

To establish PLAiN as a leading AI platform for production planning, expand its commercial deployment across manufacturing companies in the Czech Republic and international markets, further develop advanced AI algorithms for automated production process optimization, build strategic partnerships with ERP and MES providers, and secure an investment partner to accelerate product development and market expansion.
