

# ASTRUM MOBILITY

## Electric Wheelchair for Sports and Recreational Use

### UNIQUE SELLING POINTS

- More reliable and higher-performance motors
- Proprietary control software
- Intuitive controls tailored to the player and the specific sport
- Innovate intergration of hardware and software, including a VR simulator
- Safe lithium batteries with minimal self-discharge
- High level of customization
- Modular, industrial-grade component design
- User settings can be transferred between wheelchairs
- Easy replacement of consumable parts, including self-service replacement
- Safe and stable steel frame with a low center of gravity

### VISION

Within five years, the company aims to capture a significant share of the sports and off-road wheelchair market, complete product development, and meet all necessary regulatory requirements to enter market with wheelchairs certified as assistive mobility devices.
