

Inovativní sborovna

A Professional Development System for Teachers Combining Education with Digital School Tools

UNIQUE SELLING POINTS

Combining professional development programmes with a digital management tool
Individual development paths aligned with school priorities
Teacher autonomy combined with an overview for school leadership
Curated learning opportunities and a network of verified experts
Integration of development, funding, and administration
Various forms of professional learning, including mentoring, coaching, and long-term programmes
Built on an existing community, content, experience, and expert network

VISION

To establish their app as a scalable system for the long-term professional development of teaching Teams across the Czech Republic. The platform will connect individual teacher development with school priorities, curated learning opportunities, funding, and administration. Within five years, they aim to build a sustainable product supported by a network of verified experts and educational opportunities, enabling schools to systematically manage staff development.
