

Instacover s.r.o.

Innovation in Insurance through Artificial Intelligence

UNIQUE SELLING POINTS

Deep specialization in insurance through extensive domain expertise
Rapid deployment – from contract signing to production within two months
10 million processed images annually – proven scalability
Coverage of the entire insurance lifecycle, including underwriting, initial vehicle inspections, and claims handling
Seamless integration into existing insurance systems without the need to change established workflows

VISION

To become the standard infrastructure for visual AI vehicle inspection in the CEE region and expand into additional markets. The company also aims to apply its technology in industries beyond insurance.
