

TSB Alpha s.r.o.

A Sport Training System that Solves a Problem of Limited Space and Difficult Transportation

UNIQUE SELLING POINTS

One product supporting multiple types of training, including strength, carrying, pulling, explosive power, and conditioning

A portable solution suitable for home, outdoor, gym, camping, and event use

Versatile grip options and a design engineered for optimal movement control

Integration with the TSB Gym training methodology, TSB Arena competition challenges, and TSB Legends performance tracking

Validated through real-world testing with prototypes, public events, and guided training sessions

Protected by Czech Utility Model No. 38386 for the technical solution "Strength Training Bag."

VISION

The goal is to bring TSB Gear to market, validate serial production, build a stable customer base, and gradually establish TSB as a comprehensive sports training system for home users, coaches, fitness centers, sports clubs, schools, municipalities, and event partners. Within five years, the company aims to develop a scalable model that integrates the product, guided training, competitions, community engagement, and performance tracking.
